

Starfish template sheet

Cut out the square shape and glue it onto a piece of card (cereal box or a thick cardboard box) and then cut out the starfish.

To make the Starfish you will need 8g of wool and a few pinches of coloured wool to decorate. I used the following:

- * approx 4g of carded wool/batting/sliver (I used Corridale carded slivers in Sandstone) for the base of the starfish
- * a further 2g of a different colour for the top of the starfish (I hand blended 1g of Catkin and Marigold)
- * a further 2g of the Marigold and Catkin mix to build up the centre of the starfish.
- * a few small pinches of Begonia, Sandstone and Marigold to decorate the starfish
- * 2 x 38g triangle felting needles or similar
- * a felting mat or similar to use as a base to felt upon

Enjoy!
